

Air Samplers for Microbiological Monitoring of Air Quality

Cherwell Laboratories' SAS Microbial Air Sampler Range

An overview of the importance of monitoring microbial contamination in the air to control pollution

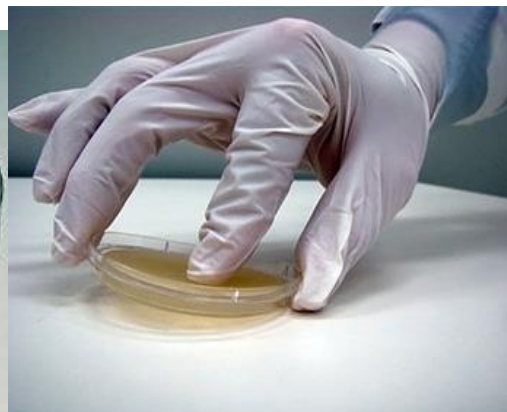

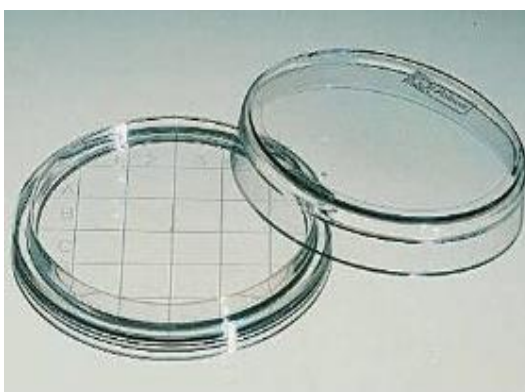

Dr. Muthanna Al-Mahdawi

Department of Biology- College of science

Diyala University

Surface monitoring (1-Surface Swabs)

Surface monitoring (2-Touch plates(RODAC) Replicate Organism Detection and Counting)

Impactor sampler

Sieve impactor sampler

Glass impinger sampler
